## British Election Results Most Decisive Victory for Nat'l. Gov't.

### Vote Indicates Workers Place Nation's Interest and Welfare Uppermost--Labor Opposition Under Leadership of Sir Arthur Henderson Swept Away. Macdonald Triumphs

Almost as keen interest was displayed on the general election as in a Canadian campaign. Prevailing opinion locally indicates that the victory was popular, and it also indicates in a striking manner that in a country where the majority are workers, industrial and agricultural, factional appeals were ignored and the national policy unclouded by Premier Ramsay MacDonald received overwhelming support.

Foreign nations, whose observers went to England to watch the election, will be convinced beyond a shadow of doubt that the British people really stand behind their national government. The choice

of the electors, as Wickham Steed, journalist, states, was "the choice between having money that is worth something and the risk of not being able to buy anything with the money one has."

Daily news despatches give the following summary:

Conservatives	472
Nat.-Labor	13
Independent	3
Labor	50
Nat.-Liberal	65
L.-Liberal	5
To hear from	7
Total seats	615

National government supporters total 550.

### Mr. and Mrs. J. Richards Honored

On Tuesday evening friends of Mr. and Mrs. J. Richards descended on them at their home on Main street, to give them a surprise party in honor of the silver anniversary of their wedding. Six tables of what were in play, and the prizes were won by Mrs. W. Gate and Mrs. Hancock.

A sumptuous lunch was served on conclusion of the card game, and Mrs. A. Cornett on behalf of the guests presented Mrs. Richards with a silver flower basket. The remainder of the evening was spent in dancing, bringing to a close a very enjoyable evening.

### SCALE OF WAGES PAID FIREFIGHTERS

There having been published in a Calgary daily a letter stating that firefighters were paid only 15c an hour during the forest fire on the Crow's Nest reserve, it might be pointed out that the rates in force were as follows:

25c per hour for firefighters, 30c for straw houses or sub-foremen, 40c for foremen, \$4.00 a day for cooks, up to \$5.00 a day for packers and pump operators, \$6.00 a day for fire superintendents.

From the 25c per hour for firefighters and other ranks a dollar a day was charged, three regular meals a day being supplied to those who were steadily engaged.

It is stated by the forest supervisor that feeding arrangements were much better carried out than in British Columbia, where men were quite often fed a makeshift meal by the roadside. In the Crow's Nest fire regular camp kitchens were set up at which men were served meals.

### Two Farmers Held Up

Two Doukhobor farmers aged 19 and 23 years from near Cowley came to town on Monday and delivered produce at various places in the district. They were driving a motor truck. About 8.30 in the evening, one of them was held up near the Coleman Coal Mine and ordered to hand over his cash. He yielded about \$28, and immediately notified the police.

The hold-up was effected by an alleged local man, and police investigation will probably disclose the guilty party.

### Hospital Notes

A case of unusual interest is that of a bright little girl, Alma Proski, 4 1/2 years, whose birth has suffered the serious disability of the femur, or thigh bone, being out of its socket. To get the bone in its socket, necessitated infirmity, and necessitates the torso and legs being kept in a cast for about six months. Frequent X-Ray examinations are made to note progress, to which little Alma submits quite as a matter of course. Despite the irksomeness of being in the cast, she is cheerful and doubtless is looking forward to the time when she will be able to join her playmates.

Mrs. Frank G. Cregeen, who has been in hospital for three weeks, is recovering from an operation, and her friends hope for her speedy recovery.

Benny Richards is in for a day or two with an injury to his leg, caused while at work in the International mine.

Onnie Hill is making progress, having been a patient for a considerable time.

Joe Urhaska has been undergoing treatment for deafness.

Reggie Pelletier is a patient suffering from pneumonia.

Mrs. Robt. Mitchell is a patient undergoing a tonsil operation.

Mrs. Glendenning is a patient in hospital.

### ST. ALBAN'S CHURCH

Next Sunday is the festival of All Saint's, the 22nd after Trinity.

The services will be:

8 a.m. Holy Communion.

2.30 p.m. Children's Service.

7 p.m. Evensong and Sermon.

The Anglican Laymen Local Association will meet on Monday, November 2nd, at 8 p.m., in St. Alban's Parish hall. All Laymen are cordially invited.

### IN MEMORIAM

IN LOVING MEMORY of Joseph A. Rayman, who passed away on October 30, 1930.

We miss thee from our home, dear one.

We miss the sunshine of thy face.

A shadow o'er our home is cast--

We miss thee from thy place.

We miss thy kind and willing hand,

Thy fond and earnest care.

Our home is dark without thee--

We miss thee everywhere.

—Inserted by his loving parents, brothers and sister.

### Hockey Club Re-Organized for 1931-2 Season

Will Again Have Strong Line-Up of Puck Chasers in "Crow" League—Juniors Also Preparing

Officers elected at Monday's meeting of The Canadians, Coleman's senior hockey team, were J. A. McLeod, re-elected president; Idris Haysom, sec. treasurer; F. Barrington, C. Huffman, W. Fraser, sr. and R. Bell, committee; "Bill" Gate, manager; J. Korman and L. Emmerson, trainers.

Last season was the most successful since the club was re-organized in 1928, and the club has a substantial balance on hand. Improvements will be made to the lighting system at the rink, and other improvements made.

There are several promising recruits for the junior team, which will probably be entered for the provincial play off. Enthusiasm is very keen already and there is every intention of giving the old rivals, Blairmore, a keen battle for the league championship. Local players and fans are looking for a "red hot" hair raising series with the Pass towns.

ANNOUNCEMENTS

The Golden Star C. G. I. T. will hold a Halloween Tea (serving pumpkin pie) and Fairy Sale on Saturday, Oct. 31, from 2.15 to 5.30 p.m., in the United Church club room.

#### Set Your Own Standard

Most of us have seen the cartoons and read the stories appearing under the title "Keeping up with the Joneses." We have laughed over them, but at the same time exclaimed aloud, or murmured to ourselves, "What fools!"

Calmly facing, and closely diagnosing the situation which confronts thousands of us today as individuals, and all of us collectively as represented by our municipal, provincial and federal governments, must we not admit that no small part of our present financial problems are the result of conditions created by an attitude analogous to that portrayed in "Keeping up with the Joneses?"

The acuteness of our present day situation may be due to other causes quite beyond our control—such as protracted drought, and consequent crop failure, leading to unemployment in urban centres—but would we not as a people, individually and collectively, have been able to withstand these shocks if, when times were prosperous and business active, we had not lived up to, and in many cases far beyond, our current income in a desperate race in which each and all were striving to keep up with somebody else?

Looking back—and it is in times like these that people are in the mood to "look back," take stock, and give heed to things that at other times when everything is forging full speed ahead they will not stop and consider—is it not possible to see that we indulged in expenditures which our actual position did not warrant but into which we plunged because of a false vanity that we must keep up with somebody else?

The old motor car although still serviceable was not good enough because somebody else had bought a new, more up-to-date, faster car; the simple, refreshing, health-giving holiday at a near-by lake we had enjoyed for years had to give place to an expensive trip to the Coast, or a winter in California, or Florida, or some Eastern city because somebody else had followed such a course; or because somebody else sent his son or daughter to university, we must do likewise, even though our boy and girl might not have similar tastes or inclinations or aptitude for the higher degrees of learning.

And these traits of character in the individual naturally have found expression in the policies of the governments we have created. Because older established, more populous and wealthier provinces, states and countries have, through the expenditure of millions of dollars, created great systems of permanent, all-weather roads, why must the same about the same still young, weak and not yet wealthy as a community. Not only roads, but our schools, our public buildings, all our public services had to be the equal of those to be found anywhere else. As individuals, as electors, we demanded these things, and our governments were forced to comply with our demands or give way for those who would. We were determined to keep up with the Joneses of the whole world.

As a result the factories of the world were busy turning out not necessities alone but enormous quantities of luxuries at a fabulous cost. Stocks and bonds of these industries mounted in value to dizzy heights. Everybody bought them with a view to amassing more money in order that they might buy still more luxury. Sooner or later a collapse had to come, and the Joneses of the world and their vast army of imitators are now in difficulty.

There is a lesson all may well take to heart at this time. It is this: Rightly or wrongly—and wrongly we believe, and certainly wrong in the vast differences which do exist—wealth is unevenly divided, income and earning power vary greatly from one person to another, and at different periods of a person's life. One man's standard of living and expenditure cannot safely be accepted as sound and proper by another man. While our present distributive system continues, one man's loss change will be another man's extravagant folly.

Like everything else in this changing world, the social order is changing. Furthermore, it is the right and privilege of every man and woman to work for a change along lines he or she considers will be better, more just; with this limitation, however, that they must consider and respect the rights of others just as they expect their rights to be respected. Self-interest alone must not be our guide, because, in the final analysis, insistence of self-interest alone means self-destruction. And this is true of nations just as truly as it is of individuals.

George Washington once said: "Economy makes happy homes and sound nations—build it first." Far better to follow this sage advice than to indulge in the heart-burning dissatisfaction of continually trying to keep up with the Joneses.

#### New Appointment

Dr. C. N. Bell, of Grain Standards Board, Has Been Superintending Dr. C. N. Bell, first secretary of the Winnipeg Grain Exchange, and recently the secretary of the Western Grain Standards Board and the Grain Appeals Board, having reached the age limit for civil servants, has been superannuated and is succeeded in his position by Major C. J. Drake, who has been transferred from the Canadian Government Elevators at Fort William.

Major Drake is well known in Winnipeg, having held a secretarial position in the Manitoba legislature for a number of years.

#### Suspect Radium Paint Is Causing Cancer

Workers Have Been Developing Disease in Increasing Numbers

Clues to the cause of cancer in radio-activity are disclosed in the final report of the New Jersey radium clock dial painters' deaths.

Lately some of these victims have been developing cancer in increasing numbers, and the report discussed the possibility that now unrecognized sources of radio-active bombardment in the human body may cause cancer. The dial painters have a form of radium emanations never before found in human beings. These are "alpha particles," heavy nuclei of radium, travelling 12,000 miles a second, which in medical use of radium are screened off by the tubes encasing the radium.

The report is made by Harrison S. Martland, M.D., of the Department of Pathology of Newark City Hospital, in the American Journal of Cancer.

Of 18 deaths to date among women in the New Jersey plant, he says five died of cancer. He finds a sixth cancer death due to swallowing radium paint by a woman who worked on New York and Connecticut clock factories. Four more "dial" cases suspected of developing cancer are under observation.

"When your wife starts to talk does she know when to stop?" "I don't know yet; we've only been married nine years."

Building of a railway to the top of Pen Nevis, Scotland's highest mountain is being urged.

#### Becoming Serious Matter

Gasoline Being Stolen From Government Caches In North  
Hundreds of gallons of gasoline have been stolen from government gasoline caches scattered in various parts of Manitoba, Saskatchewan, and the Northwest Territories during the past two years and investigations are underway by the R.C.M.P.

The theft of a few gallons of gas does not seem a very serious offence, but to the R.C.M.P., 'planes in their travels across the bush country it may easily enough be a matter of life and death.

Expecting to find a cache of hundreds of gallons to carry them back to civilization or on to the next stopping place, pilots frequently have found the supply buildings broken into and only a few scattered tins of fuel left.

Gasoline that cost 35 cents a gallon in this city is eagerly purchased for \$9 and \$10 a gallon 'north of the 57'. The cost of freighting the fuel explains the difference.

Last winter a record price of \$15 a gallon was paid by a northern mining company for transporting gas to Reindeer Lake in Northern Saskatchewan.

#### Hard Times In Labrador

Twelve Thousand Families Are Reported To Be Facing Starvation

Unless prompt assistance be forthcoming some 12,000 families facing starvation this winter in the Fortu Bay district of Labrador, according to a report presented the Quebec Government by Rev. A. S. Leomyang, provincial school inspector and Anglican missionary of the stricken district. This condition was brought about by the failure of the cod fishing industry this year.

The report was considered by a cabinet meeting, at the conclusion of which Premier L. A. Taschereau said the Quebec Government will do something as soon as possible to alleviate the situation.

"We would naturally like the Dominion authorities to go 50-50 with us in providing this relief," he added.

#### DRAPERIES MADE NEW

"When we resumed housekeeping a month ago I found my draperies had become creased from packing. I hung them out on the line, hoping to remove the creases. Then I forgot them. The result was they became badly faded and sun-spotted. "I was heart sick until the happy thought struck me. I bought a box of Just Dyes and a deeper green, and as I used Diamond Dyes they look gorgeous and new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful colors, when used either in tinting or dyeing—and never take the life out of cloth as other dyes do."

Mrs. J.E.T., Montreal.

#### A New Product

Making Of Wool Leather Is Closely Guarded Secret

The newest leather isn't leather at all. It is nothing more or less than wool. Wool-leather has been developed at the headquarters of the British Wool Industries Research Association in Leeds, England, and the process is a closely guarded secret. It looks like leather, wears like leather, is waterproof, and can be produced remarkably cheaply. The new wool-leather is especially for boot uppers, furniture, motor cars, and for the upholstery of cars, buses, and railway vehicles. Not the least of its advantages is that it is easily produced in any desired shade or colour.

#### Proud Of Record

In the province of Vermont, Sweden, 164 farmers have received diplomas testifying to the long hereditary tenure of their lands. The record seems to be held by a family at Eda, which has farmed its lands since 1470, but another family, at Norda Enderud, has held a farm since 1480. The Swedish farmers take great pride in their family records and the new diplomas are highly prized.

The Royal Aero Club, of England, exclusively a men's club, is to admit women as guests only, and may give them full membership later.

It is useless to kick for a discount when called upon to pay the debt of nature.

#### Acid Stomach

Completely Relieved By Famous Vegetable Pills

Mr. Frank C. of Blackburn, writes: "I have suffered long from acid stomach and constipation, but since being advised to try your wonderful Carter's Little Liver Pills I can eat anything." Mr. Carter's Little Liver Pills are an ordinary laxative. They are ALL VEGETABLE and have a definite, valuable tonic action upon the liver. They end Constipation, Indigestion, Bloating, Headaches, Stomach Complaints. All Druggists, 25c & 75c red package.

#### Achieved Great Success

Lord Byng Restored Public Confidence In Scotland Yard

Canadians will read with warm satisfaction the tribute paid to Lord Byng by the London Times on his relinquishing the office of Commissioner of the Metropolitan Police Force. The great popularity which his lordship gained with the soldiers under his command on the battlefields of Europe was shared by the citizens of this country when he became Governor-General of the Dominion. He was liked for his personal qualities as much as he was admired for his ability and strength of character. When he was appointed to Scotland Yard there were some who wondered whether military qualifications were the right credentials for a police chief. Unfortunately Lord Byng has suffered much from ill-health during his tenure of office, but he has succeeded in achieving a great success in the position. Certain happenings had marred the reputation of the record of the Metropolitan Police Department, and it was to no surprise that the great commander was called. He undertook the task with his usual thoroughness, however, with the result that Scotland Yard has gained nothing less than complete restoration of public confidence in the police force and the police force has regained confidence in itself. The good which Lord Byng has done will not fade after him. May he be spared to long enjoy his well-earned retirement! He has shown himself in peace and war a true commander and a great administrator. Quebec Chronicle-Telegraph.

Persian Balm imparts a rare charm and distinction to the woman who uses it. Fragrant as a flower, delicate as cool water, it always results in complexions delightfully young and lovely. Indispensable to every woman. As a powder base for oily-textured skins or as a beautifying lotion, it is unrivalled. It softens the skin, removes the blemishes and makes the hands flawlessly white.

#### Recipes For This Week

(By Betty Barclay)

#### CORNEB BEEF LOAF

- 1 package lemon-flavoured gelatin.
- 1 cup boiling water.
- 1 cup meat stock, or 1 cup water plus 4 bouillon cubes or 4 teaspoons beef extract.
- 1 tablespoon Worcestershire sauce.
- 1/2 teaspoon paprika.
- 3 cups cooked corned beef, ground.
- 1 tablespoon onion, grated.
- 1 tablespoon prepared mustard.

Dissolve gelatin in boiling water. Add meat stock, Worcestershire sauce, and paprika. Chill. When slightly thickened, fold in corned beef, onion, and mustard. Turn into loaf pan. Chill until firm. Unmold. Serve in slices on crisp lettuce. Garnish with sliced hard-cooked eggs or tomato wedges. Serve 10.

#### Quince Honey

- 6 large quinces.
- 4 large sweet apples.
- 2 lemons.

Sugar.

Pare the quinces and apples, and grate them. Measure the pulp and use three-fourths as much sugar as pulp. Pour the boiling water over the sugar and stir it until it is almost dissolved. Add the fruit pulp and lemon juice, and cook the mixture until it is clear. Pour it into clean, hot glasses and cover with paraffin. It will have the consistency and appearance of honey.

Don't be without Douglas' Egyptian Liniment. Keep it always handy. Relieves toothache, neuralgia, sore throat, quinsy, and croup. Invaluable for burns, sores, Barber's Itch and Ringworm.

#### Crows Hear Einstein

A huge crowd waited with police to hear Professor Albert Einstein, father of relativity, outline a new scientific theory, even though the theory concerned such a highly technical subject as the use of vectors in three-dimensional space, something understandable only by very competent mathematicians.

"Who was Samson?" The scholar's aspirant bit his pen, looked at the ceiling for inspiration, and wrote: "Samson was a strong man appointed to entertain the Philistines. He brought the house down."

Blooming varieties of begonia like plenty of sunshine, whereas varieties with spotted leaves thrive in north windows.

Lack of iron in the diet rather than lack of vitamin "G" may be the cause of pellagra.

Drought has done considerable damage to the fax crop in Italy.

#### Mass Purchasing Needed

Production Has No Value Unless Goods Can Be Bought

Just as we had found out about all we needed to know about mass production, the whole thing was spoiled by our not knowing enough about mass purchasing! We believed so sincerely that he was the real benefactor of the race who lost two blades of grass to grow where formerly there grew but one that we lost our heads completely as to the other real benefactors. Production is all very well, but there is little value in products that meet no real want. The problem of production was solved by the wise old teacher who warned his scholars that when one had food and clothing and shelter that he should be content.

Mass production had made it very difficult for some folk to face any emergency. We have heard of floods, for instance, who, year in and year out, did nothing but fill a grease cup or move a lever. Now there are no grease cups to fill and there is no need served in moving the lever. But cup filler and lever mover are now hungry.

#### Make Drastic Cuts

United States Naval Expenditures To Be Reduced

With strokes cutting more than \$50,000,000 from its 1933 expenditures, the United States navy has eliminated its less important activities and has sharply curtailed many that it valued highly.

More than 3,000 civilian employees will be laid off. More than 4,000 sailors and marines will be taken from the rolls.

The Boston, Mass., and Charleston, S.C., navy yards will be closed, and so will the operating base at New Orleans, La., the naval station at Newport, Rhode Island, and the naval ammunition depot at Lake Denmark, New Jersey.

Ready-Made Medicine. — You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchitis, asthma, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

#### Canada a Good Country

"Times may be 'hard' in Canada in some lines, but generally speaking, this country can hold its head up with any of them when it comes to business integrity and solidity. Naturally, we cannot hope to be rid of our faults, but we are always tripping over their lower lip, but these, fortunately, are in the minority. But how that minority can sometimes broadcast.

#### World's Poultry Congress

Preparations Being Made To Entertain Delegates To Rome

Delegates to the Fifth World's Poultry Congress being held in Rome, Italy, in 1933, are assured an exceptional opportunity for visiting. Not only will they "see Rome" during Congress week but they will be guests of the Government of Italy for an eight-day tour of the country, during which visits will be made to such interesting and historic spots as Leghorn, Florence, Pisa, Perugia, Ancona, Bologna, Ravenna, Milan, Como, and Venice.

Canadian delegates will return by way of Switzerland, Germany, Belgium and France en route to Great Britain. Going routes being considered include via Paris and the South of France, via Gibraltar and Old Spain, via the Riviera, and by steamer direct to Naples with a day at Palermo. F. C. Elford, Dominion Poultry Husbandman, is again giving an active lead to Canadian participation and will be glad to hear from anyone interested in attending the Rome Congress.

#### Telegraphing Flowers

Television May Enable Purchaser To Actually See The Flowers Selected

The sending of "flowers by telegraph" has for some years been a great convenience to many people, although they have been obliged largely to leave the selection of the bouquet or plant to the florist. But, according to information given out at the recent convention of the Florists' Telegraph Delivery Association, television will soon enable the customer actually to see his selection of blooms and supervise their arrangement before delivery is made. Perhaps the time may come when a customer can get a whiff of their fragrance—Christian Science Monitor.

#### Will Ask Pest Survey

The Alberta Government will make a request to the Dominion Government that Dr. A. Anrep, pest moss specialist of the Federal Department of Mines, be permitted to make an extensive survey of pest moss deposits in Alberta next year. The step is being taken with a view to ascertaining the commercial qualities of Alberta pest moss for insulating and agricultural purposes.

A man's reputation is made as much by what he leaves unsaid as by what he says.

People who are too old to learn have outlived their usefulness.

Owners of radio sets in Portugal are to be taxed \$2.25 a year.

**"FATIGUE?"**  
I just postpone it!"

"No, I don't have 'nerves.' You can't have them, and hold this sort of position. My head used to throb around three o'clock, and certain days, of course, were worse than others."

"Then I learned to rely on Aspirin."

The sure cure for any headache is rest. But sometimes we must postpone it. That's when Aspirin saves the day. Two tablets, and the nagging pain is gone until you are home. And once you are comfortable the pain seldom returns!

Keep Aspirin handy. Don't put it away, or put off taking it. Fighting a headache to finish the day may be heroic, but it is also a little foolish. So is sacrificing a night's sleep because you're an annoying cold, or a sore throat, or a grumbling tooth, or neuralgia, or neuritis. These tablets always relieve. They don't depress the heart, and may be taken freely. That is medical opinion. It is a fact established by the last twenty years of medical practice.

The only caution to be observed is when you are taking Aspirin. Take a saltwater bath because it will not act the same. Aspirin is made in Canada.

**BAYER**

Made in Canada

## President Hoover And Premier Laval Confer On Debt Adjustments

Washington, D.C.—Ground work for a sweeping readjustment of German reparations and allied war debt payments to the United States has been laid during the conference concluded here, Sunday, October 25, by President Hoover and Premier Laval of France.

Germany is expected shortly to take the initiative by asking for relief from her enormous reparation burden. France is expected to co-operate in re-examining Germany's ability to pay, and radical reductions are considered inevitable.

The United States, which collects no reparation from Germany but does have vast war debts outstanding from Germany's allied creditors, is ready in turn to discuss its own contribution to world stability. A reopening of the debt question is expected to follow immediately on any change in reparations.

In addition to finding a common course of procedure on this important question, the Hoover-Laval discussions produced an agreement for Franco-American unity of action to protect fully their present monetary systems, based on the gold standard; to increase the stability of international exchange; and to unlock for world recovery every possible reservoir of frozen assets.

### Giant Aeroplane

Large German Machine To Be Used In Hudson Bay Area

Montreal, Que.—One of the largest aeroplanes ever brought to Canada has been taken from the hold of the "Beaverbrook" and the parts conveyed to Canadian Junkers, Limited, service station, preparatory to being assembled for use in the Hudson Bay region.

The giant German plane, the first of its kind to reach this country, has an over-all length of 62 feet, a span of 95 feet, and is 15 feet high. She will be used by Canadian Airways as a freighter. She will be able to fly a distance of 500 miles with a cargo of 5,000 pounds, at an average cruising speed of 100 miles an hour.

Only two men will be needed to fly the freighter, but if it was decided to take passengers instead of cargo she could carry a total of 34 persons.

### Unemployed Women

No Census Will Be Taken Says Government

Ottawa, Ont.—The Dominion Government will not undertake registration of unemployed women. This is made plain in a letter Senator Gideon Robertson has sent to the National Council of Women. The registration of unemployed men has proved a very considerable task. He is hopeful of obtaining much desired information from the census in this regard.

Senator Robertson's letter says "the results of the efforts to register unemployed men have been so obviously misused by duplications and men not unemployed registering in anticipation of their becoming out of work, that it seems to preclude the possibility of successful registration of unemployed women."

## Briand Proposals On Manchurian Trouble Are Not Acceptable

Geneva, Switzerland.—Japan has refused to allow the council of the League of Nations to set a time limit for withdrawal of her troops to the Manchurian railway zone. In setting forth his position, Kenkichi Yokizawa, Japanese spokesman, declared that his nation proposed to remove the troops as soon as security conditions permit, but could not accept a definite date.

This was his answer to a resolution by Aristide Briand, chairman of the council, suggesting the evacuation be completed November 16, date set for the next session of the council.

The Briand resolution, which is the council's formula for dealing with the Manchurian crisis, also was attacked by Dr. Alfred Zee, China's spokesman, who said it fell short of his government's desires and asked for time to seek instruction from Nanking. Since neither of the parties to the conflict approved the resolution, the council adjourned. Mr. Briand had announced the terms of his resolution

### Champion Cattle On E.P. Ranch Burned

Ranch Hands Battled Disastrous Fire For Twelve Hours

Calgary, Alberta.—Damage totaling \$18,000 was done by fire which razed two barns on the Prince of Wales E.P. Ranch near High River, Alberta. The fire claimed the \$1,000 champion cow "Balsam Lavender," the \$800 champion heifer, "Princeton Lily," the \$600 yearling heifer, "Princeton Jessie" and seven young bulls.

Prof. W. L. Carlyle, manager of the ranch, believed that spontaneous combustion caused the outbreak. All the ranch hands battled the flames but the high wind blocked their efforts and the fire spread rapidly. For 12 hours the fire was fought before it was prevented from spreading to other buildings of the ranch. Professor Carlyle said the champion cow heifers were being prepared for the Royal Winter Show at Toronto. He said all entries would be withdrawn now because of the conflagration.

### Death Of A. J. McPhail

President Of Saskatchewan Wheat Pool Passes Suddenly In Regina

Regina, Sask.—A. J. McPhail, president of the Saskatchewan Wheat Pool since its inception, and president of Canadian Co-operative Wheat Producers, Limited, that is, the central selling agency, died suddenly October 21 in Regina General Hospital. He was 47 years old.

Mr. McPhail underwent an operation on September 28 for appendicitis, since that time had been making satisfactory progress. He was to have been released from hospital the day he died.

His attending physician, Dr. Hugh McLean, stated that embolism, or the release of a clot in the blood stream, caused his sudden death.

### Want Relief Handled By Retail Merchants

Request To Be Sent To Government Of Alberta

Calgary, Alberta.—Southern Alberta members of the Retail Merchants' Association have decided to request the Alberta Government to distribute relief necessities through the retail merchants. They will propose to the Government that the province be divided into districts and that the retailers sell to the Red Cross Society, which in turn will distribute. The retailers are prepared to submit to price list which will represent cost prices, similar to the method approved by the Saskatchewan Government.

### Trade Ship Welcomed

Montreal, Que.—Hon. H. H. Stevens, Canadian Minister of Trade and Commerce, officially welcomed the "Canadian" trade ship to Canada here at a banquet given in honor of the Australian trade representatives by the Montreal Board of Trade, Chamber of Commerce and the Montreal Branch of the Canadian Manufacturers' Association.

Simultaneously at Nanking, the capital, the National Government made public its reply to the United States note invoking the Kellogg anti-war pact. The reply promised to uphold the pact, expressing deep appreciation of "America's concern over Manchurian developments."

Shanghai, China. The united democratic China for which Sun Yat-sen, its first president, planned and fought, seemed nearer as President Chiang Kai-shek conferred here with political advisers who, until Japan's military invasion of Manchuria last month, were in active revolt against his government.

### Premiers Will Meet Again In November

To Consolidate Views On Problems Of Western Provinces

Calgary, Alberta.—Taking back to their respective provinces information which will be studied in preparation for another conference in November, premiers and cabinet members of the prairie provinces closed their conference here and left for their homes.

The meeting in November is being called to consolidate views of the prairie provinces and British Columbia in an effort to have legislatures of each province take uniform action on problems debated. British Columbia's representatives, absent from last meeting, will take part in the November session.

Topics on which information was exchanged during the two-day gathering included unemployment relief, curtailment of provincial expenditures and finances generally, debtor-creditor grievances, wheat pool guarantees and gasoline prices. On the question of gasoline prices alone was any definite action taken, and this was a step towards an investigation under the Combines act.

### Indian Conference Continues

Report To Contrary Is Ridiculous

London, England.—Prime Minister Ramsay MacDonald at the meeting of the federal structures committee characterized as "disgraceful falsehoods" reports that the Indian round table conference was on the verge of breaking up.

"There has been no change in the government's policy to carry the conference to a close," he said. "It is the duty of everyone concerned to work for the successful outcome of the conference."

Sir Samuel Hoare, secretary for India, described a statement credited to Mahatma Gandhi that the conference would adjourn on November 12, as "ridiculous."

"We are prepared to continue the conference as long as delegates believe a useful purpose can be served by our deliberations," he said.

Gandhi made steamer reservations several days ago to return to India next month on the grounds that Great Britain is not prepared to grant the demands of the Indian Nationalists and that he was wasting his time here.

### Federal Authority Must Be Secured

Before Provinces Initiate New Undertakings As Relief Measure

Ottawa, Ont.—"All that has taken place is that various provinces and municipalities have been notified to refrain from initiating new undertakings without federal authority," Senator Hon. Gideon Robertson, Minister of Labor, declared here, commenting on western despatches to the effect that the provinces had been requested to cut their relief measures.

"We found that new undertakings were being embarked upon for which federal authority had not been secured," the Minister said. "This had to stop. We notified the provinces that such works as were already commenced could be proceeded with; but that new enterprises must have Dominion authorization. We intend to insist upon that being respected. That is all."

### SEES CANCELLATION

The announcement in London of Sir Norman Angel (above), a known British economist, that he believed all war debts will be cancelled, has attracted international attention. Sir Norman stated he doubts that payments on the debts, suspended by the Hoover moratorium last June, will ever be resumed.

### Repays U.S. Credit

Bank Of England Retires Large Portion Of Big Loan

New York, N.Y.—The New York Herald-Tribune says the Bank of England has repaid most of the \$125,000,000 90-day credit it obtained from the United States federal reserve system on August 1.

It was revealed, says the newspaper, in a major front page story that the bank had been able to retire almost \$100,000,000 of its credit in this market.

The Herald-Tribune says further in part: News of the retirement of four-fifths of the August credit, which matures on October 31, evoked considerable surprise and gratification here. It was regarded as a foregone conclusion that the federal reserve advance, while nominally due last week, was actually "frozen" for some time to come.

Thus, by repayment of the major portion of its credit for the federal reserve, the Bank of England has lowered substantially its foreign liabilities, thereby removing some of the obstacles which might be considered as standing in the way of an early stabilization of sterling exchange, and simultaneously the liquidity of the federal reserve system has been increased a corresponding amount.

### Not Yet Learned Lesson

Many Disasters Have Apparently Failed To Impress Nations

Toronto, Ont.—Equality of sacrifice among the nations was stressed as the salvation of the world, by Sir William Clark, British High Commissioner in Canada, officiating at the annual prize giving at St. Andrew's College, Sir William addressed the students. Looking back over a generation, "which, in the last 20 years has seen so many disasters come upon it, culminating in the severest and most widespread depression which the world has known," Sir William expressed a fear that even now the nations of the world had not yet learned their lesson.

## Premier Officially Greets Good-Will Ship From Australia

### United States Again Buys Canadian Butter

Discount On Dollar Has Made Exportation Profitable

Toronto, Ont.—"Despite a duty of 14 cents a pound, Canadian butter is again finding its way into the United States for the first time since 1917," says a special dispatch to the Toronto Mail and Empire from its Ottawa correspondent.

"The discount on the Canadian dollar in New York has done the trick," the dispatch continues. "There is a shortage of butter in the States and a surplus here, making United States prices appreciably higher than Canada's, but exportation has become profitable only since the dollar went down to its eight, nine or ten per cent. discount across the border. Not since 1927 has such export been anything but a losing proposition."

### Relief For West

\$50,000 Worth Of Food And Clothing Shipped From Eastern Canada

Toronto, Ont.—Since the national emergency relief committee of the United Church of Canada was formed last August, 38 carloads of clothing, fruit and vegetables, mostly from Ontario have been shipped to drought-stricken areas of the Canadian west. Definite promise of 27 more carloads from this province has already been secured, according to officials of the committee.

Figures compiled show that a total of \$50,000 worth of food and clothing has been shipped to the prairies from Eastern Canada and British Columbia under the direction of the relief committee. The largest total is that of Huron County, Ontario, which is now loading its eighth car.

### No Over-Lapping

Co-Ordination Of Service On Two Railways Is Objective

Ottawa, Ont.—Elimination of overlapping services has become one of the main objectives of both the Canadian National and Canadian Pacific Railways, Hon. R. J. Manion, Minister of Railways, stated.

Commenting on a rumor that the railways were contemplating signing an agreement covering the routing of freight and passenger business in certain sections of the country, Dr. Manion said he was unable to make a definite statement, but the project was in line with the general intention of the two roads. The two railways, faced with falling revenues and a decrease in business, were determined, it was understood, to gain common relief wherever possible.

## Message Of Confidence To People Of Canada By Hon. H. H. Stevens

Montreal, Que.—A message of confidence and optimism was brought to a Canadian Manufacturers' Association banquet here by Hon. H. H. Stevens, Minister of Trade and Commerce.

Prosperity, based on more permanent structures than those which had collapsed in the hectic days of 1928 and 1929 awaited the country in the new epoch which opens next year, he declared.

The Minister was given an eager hearing as he pointed to certain facts and figures to support his conviction that optimism was justified. He hoped these figures would be by way of contrast with the constant comparisons published on the financial pages of daily newspapers which, he said, depicted little but the worst side of conditions.

Things were undoubtedly bad at present, but there was a silver lining, the Minister stated. His purpose was to seek to instill confidence in the country, in the people and in the future, for confidence was needed to carry the country through the worst of the present. There was a lack of trust, unfortunately, and it was decided to stimulate internal business by bringing more definite results than efforts spent in external trade. Hon. Mr. Stevens said. He pointed to the year of 1929,

Ottawa, Ont.—Welcoming officially the goodwill ship "Canadian Constructor" in its "promising adventure in intra-Empire trade"—to use his own words—Hon. R. B. Bennett, Prime Minister, from his office in the Parliament Buildings greeted Captain Webb of the vessel before she had reached Canadian shores.

"We realize," Premier Bennett declared in a telephone and wireless conversation with the vessel as she neared her journey's end at Montreal from Australia, "that we are living in a period of world-wide disturbance and unrest, and unless we within the Empire are united and present a solid front we certainly will not reach that prosperous state which it is our hope to attain."

"Every sign upon the horizon points to improving conditions, and we have the greatest opportunity that has come in this or any other generation to secure the economic unity of the various component parts of the British Empire, for the mutual advantage of us all, and to play an even greater part in shaping the destiny of the world and ensuring the peace, happiness and prosperity of mankind."

The words of the Prime Minister were heard in Australia through a wireless re-broadcast and were also heard in Canada. Carrying a large consignment of assorted Australian goods, the goodwill ship is the first to reach Canada with Antipodean products since proclamation of the new Canada-Australia trade agreement. On its return voyage, the vessel will be laden with a varied assortment of Canadian goods for Australia.

"I certainly have come on a great mission," Premier Bennett told the commander of the goodwill ship. "You are almost, let us say, blazing a new trail, as you have brought to us a ship which is in the way of being a pioneer ship sailing the waters on a new and great, and we believe, a promising adventure in intra-Empire trade."

"I know of these Australian products, and I know something of the men who were responsible for their production—men who, I am informed, were very largely recruited from the ranks of Australia's great army which, at sea and on land, fought in the Great War alongside our own Canadian boys. We intend to give a warm welcome to these Australian products. I believe there is not a Canadian who would decline to give such a welcome."

Want Gambling Stopped Mexico City.—Commercial organizations of Mexico, acting through the medium of the confederated chambers of commerce, will ask President Ortiz Rubio to put an absolute stop to all gambling in Mexico.

one of high prices, in which total production in this country had been disposed of on the basis of 20 per cent. for external trade and 80 per cent. for internal trade. An increase of one per cent. in internal trade would mean an increase of \$50,000,000 whereas one per cent. increase in external trade would mean only \$12,000,000.

"I am not seeking to diminish the need for expanding export trade, but what I am seeking to impress upon your minds is the opportunity you have of making a fairly rapid expansion of the business of the country by stimulating internal trade."

Reports appearing constantly in the newspapers showing differences between today and the same day last year had had a bad effect on the human mind, leading to an impression that all was bad, the Minister said.

"As a matter of fact it is not so bad. In the matter of exports we find that for the first eight months of 1930 and 1931 that the drop this year is 28.6 per cent. It sounds serious, nearly a third, but on the comparison of prices, as between the two years, we find that the drop would be only 13.3 per cent."

Mr. Stevens called attention to the new process for building, and remarked that many parts of the main cities of Canada would have to be rebuilt. He had noted of late the trend in that direction in Montreal.

## NOTES AND COMMENTS

To see ourselves as others see us is a mighty good thing. Too many never think of reviewing themselves to discover their faults and weaknesses, but are very quick to enlarge on the faults of others. The famous novelist, Charles Dickens, through his book "David Copperfield," depicted all phases of human nature in an amusing and truthful manner. To read it is an object lesson which would benefit all who might read.

In small communities, where people come into closer contact with each other than in the larger centres, where business and social life is closely interwoven, there is a tendency to take advantage of familiarity which such close contact engenders, which would not prevail in larger centres, or even be thought of. Abuses, criticisms, showers of sympathy or praise, are poured out generously when the occasion presents itself. Quite often the criticisms are hurled without calm thought, and mischief is caused, followed by regrets by trouble-makers who allow their tongues to wag without thought control.

Those whose thoughts are aimed upwards and outwards, instead of inwards, will find plenty to occupy their minds in a useful and pleasant manner. They have not time for silly rumors, scandal and other nonsensical chatter which furnish the daily diet for too many.

Ranfsey Macdonald's re-election was received by the majority of Canadians as a tribute to his sterling character equally as much as the national policy on which he staked his political career. Howled down at Seaham Harbor, the constituency he represented as Labor premier, indicates again that it is not the noisy element which really counts, but those who do not so forcibly demonstrate their feelings, and who give calm thought to the issues of the day.

The Journal is the subject of censure of a certain element because it will not express the opinions of a section of people on a purely personal matter. Presumably its editor should be beheaded and his head stuck on a pike pole for public execration. A self-respecting newspaper is not to be made the instrument for furthering personal animosities. In the particular instance for which The Journal came under discussion, those personally interested were absolutely free to express their thanks without asking The Journal to do it for them. Above all, an editor has the final say as to what shall appear in his paper, no matter if parties offer to pay for it. No person can compel the editor of this paper to publish something he does not wish to, and that's that!

All these differences of opinion, great or small, are but the spice of life. Yet it is surprising what importance people attribute to a newspaper when they wish to create public opinion for selfish or unselfish ends. Despite the fact that a newspaper may express opinions calculated to influence opinion, it is really but the reflex of the life of the community in which it is published. It reflects its activity or inactivity. Take a look at its advertising and news columns to get a picture of the community. It usually tells the truth as accurately as the mirror reflects the face looking into it.

But, let's on to more pleasant things. There is prospect of the coal industry improving. More domestic coal is being shipped to eastern Canada, according to one railroad company's report. The steam coal industry may benefit later in the season. Lack of railway business has been a heavy factor in curtailing the use of steam coal. The pendulum will commence to swing upward before very long.

No one will begrudge the children their fun on Hallowe'en, except it be some dried up old Scrooge or Uriah who, not having enjoyed childish fun in their young days, cannot enter into the joy of innocent amusement which Hallowe'en always brings to mind. It is not the children who are guilty of annoyance and damage, which causes many nervous people to view the occasion with alarm. To enter into the fun of the youngsters is to live again the days when we were young.

Strains of harmony proceeding from the practice hall of the male glee club make us realize that the finer things of life are worth cultivating instead of brooding over imaginary grievances and thinking all is wrong with the world. Long may your voices continue to pour forth melodious sounds on the night air, to carry our thoughts to something higher and purer, and impress on us that happiness and appreciation of others will make life much more pleasant.

'Tis easy to tell a man he's a fool--it isn't so easy to try and overcome his foolish ideas.

CAREFULLY SELECTED  
PROGRAMS AT COLE'S

The management of Cole's theatres assure their patrons of the continuance of the careful selection of all programs offered in their theatres. The pictures booked for presentation include the entire product of the three leading producing companies: United Artists, Metro-Goldwyn-Mayer and Fox Film Corporation.

# Value To Canadian Agriculture Of The Chemical Work Carried On By Our Experimental Farms

For a period of more than forty years the division of chemistry of the Dominion Experimental Farm system has been in close contact with the Canadian farmer. This has been brought about by the issue of reports and bulletins, by lectures and addresses, personal interviews and to a still greater degree by a voluminous and ever-increasing correspondence.

The information so disseminated is largely the result of investigation and research which are based upon the application of the science of chemistry to practical agriculture, and these constitute the main work of the division.

A large number of soil samples are received for examination from farmers scattered throughout the Dominion. In the report of analysis to the sender, advice is given with respect to manures, soil amendments and suitable fertilizers, etc., in this way alone hundreds of farmers every year are directly benefiting from this service of the division. From the results of the report of analysis to the sender, carefully planned investigations the influence of continuous grain-growing has been determined and economic methods of maintaining the fertility of western prairie soils have been indicated. The extensive use of alfalfa and clover in present-day crop rotations is largely due to the early work of the division in which the manorial value of these legumes was demonstrated.

Recent years have witnessed an increasing use of fertilizers, especially in eastern Canada. Extremely valuable information with respect to the economic employment of fertilizers and liming materials has resulted from the investigation work carried on by the division in several branch farms and stations.

Another important phase of the work has been the establishing of standards for the more important feeding stuffs. Some years ago there was widespread dissatisfaction over the variable quality of milling products. Many were loaded with screenings with consequent poorer feeding value; injurious weed seeds were frequently present, and middlings with a low fibre content, so necessary in pig-feeding, were difficult to obtain. Standards for bran, shorts, middlings and feed flour were set, regulations regarding adulterations by screenings passed and, as a result, there is on the market today standardized clean, high-grade milling products. Similar work was done for packing house by-products, resulting in the vending of properly labelled material with guaranteed contents of protein, fat and bone-phosphate.

In the chemistry of wheat it has been shown that seasonal conditions — precipitation, temperature, etc. — have a greater influence on the quantity and quality of the gluten than does soil fertility. The valuation of newly introduced varieties has been another phase of the work. For instance, some years ago an effort was made by interested parties to distribute in the West a variety of wheat to replace Marquis and other standard varieties. Yields, appearance and even percentage of protein in this variety were satisfactory. Gluten determinations, however, showed this wheat to possess a soft, sticky, non-resilient gluten, markedly inferior to that of such other varieties as Fife and Marquis. In consequence the distribution of this variety was discouraged.

Grain mixtures grown to produce high protein yields have been under investigation. As a result certain mixtures have been found which almost double the amount of protein per unit area formerly obtained. The critical examination of a recently introduced scheme of pasture calls for special comment. This system involving close grazing accompanied by judicious fertilizer treatment, has produced a herbage

rich in protein during the entire growing season and has resulted, in some districts, in saving the purchase price of commercial feeds, during the summer.

Free analysis of well water has contributed towards the maintenance of hygienic conditions through the farming districts. Thousands of samples of well water have been analyzed, pollution, alkalinity, etc., detected and remedies suggested.

At one time the export trade in pork to Great Britain was seriously affected by extreme softness of the product. Investigation of this problem proved that the chief factors leading to softness in pork were the stage of maturity of the animals and the character of the feed—skim-milk in the ration possessing a correcting influence in the prevention of this undesirable quality.

The foregoing paragraphs present but a small proportion of the work of the division. These examples, however, may serve to emphasize the value to Canadian agriculture of the chemical work of the Dominion Experimental Farms.

(By Anabelle Worthington)

**WHAT NEW YORK IS WEARING**  
Illustrated Dressmaking Lesson Furnished With Every Pattern

Today's little dress delights in its smart simplicity. It is cut along lovely slim lines and therefore suitable for many figures. And it has a pet bow added to its tiny contrasting vest, a feature which is charming.

The diagonal seaming at the front of the skirt is decorative and slimming too. The skirt is circular with moderate fullness.

A dark ground crepe silk print made the original.

Style No. 3219 may be had in sizes 14, 16, 18, 20, 22, 24, 26, 28 and 30 inches bust.

Sheer silk georgette crepe, plain flat crepe silk and wool and silk crepe novelties have stunning effects in this model.

Size 16 requires 3½ yards 39-inch with ½ yard 39-inch contrasting. Pattern price 25 cents in stamps or coin (cash preferred). Wrap coin carefully.

## Should Be Two Years

One Year Record For Dairy Cow Not Paid Test Of Value

Too many dairymen are prone to judge a cow's value by a one-year record, instead of by her total production over a period of years, says K. B. Morrow, assistant extension service dairyman of the New Jersey Agricultural Experiment Station. He says it requires approximately two years of milk production for a good cow to pay off the change against her for rearing or purchase, after pointing out that it costs money to buy a cow or to rear one to a productive age.

"Whether or not a cow will be highly profitable depends on how many years she continues to return a good profit over the cost of her maintenance," Mr. Morrow emphasizes. "One ten-year-old cow will produce as much profit above all expenses as three cows that are kept in the herd until only 6 years old, assuming the average yearly production is the same for all animals."

"If the cows freshen at 2 years of age, the dairymen would have to milk three cows for four years to equal returns for one cow milked eight years. Care of three cows requires 50 per cent. more labour. The investment in cows and feed is also 50 per cent. more than is necessary for one high producer."

## Testing Cinder Deflector

Invention of Montreal Man Being Tried Out By C.N.R.

Passengers in railway coaches should have no fear of hot cinders when they open windows of railway coaches if a new patented cinder deflector, being tried out on the London division of the Canadian National Railways, proves effective. The cinder deflector was invented by a Montreal man and was recently placed on engine No. 6148 on C.N.R. train No. 17, Montreal to Chicago. It attracted considerable attention. The deflector is a box-like device open at front and rear. It fits around the smokestack, catching the air and adding pressure to the smoke from the stack. The theory is that the force of the wind entering the device will be sufficient to lift all cinders high in the air with the smoke and keep them up until the train has passed under its own smoke cloud.

Making and selling toy balloons in the United States is a \$3,000,000 business.

Black and brown bears are still found over wide areas of this country from coast to coast.

## Excellent Wheat Quality

This Year's Western Wheat Crop Of High Protein Content

Additional tests of the milling and baking qualities of the 1931 crop have confirmed earlier conclusions that this year's crop is equal, if not superior, to that of any year examined. The tests were conducted by Dr. F. J. Birchard, chemist in charge of the research laboratory of the Board of Grain Commissioners.

The weights per bushel of the first four grades are all higher than last year. The average weight for No. 1 hard is 65½ pounds; for No. 1 northern, 65; No. 2 northern, 64½; No. 3 northern, 62½. With the increase in weight there is a corresponding increase in the percentage of flour in each grade. The average protein content is placed at 14.3 per cent. for the first four grades in Dr. Birchard's report.

"The baking quality of the first four grades is fully equal, if not superior to last year," says the report. "This is indicated by the very large volume and excellent texture of the loaves both when baked by themselves and when blended with typical soft wheats."

Attention is called to the relatively small percentage of wheat grading three northern or lower. Of the wheat passing through Winnipeg, 38.8 per cent. graded one northern, 34.1 per cent. two northern, 21.6 per cent. three northern, and only 4.5 per cent. northern, and one percent in other grades.

While the samples tested include wheat from the three prairie provinces, comparatively little from the northern sections of Saskatchewan and Alberta has been inspected. Heavy rains recently in those areas may affect the wheat.

## An Accurate Record

A native assistant in an Indian hospital thus recorded the state of health of one of his patients on the chart which hung over the bed: 11:00 a.m.—Patient in low degree. 11:30 a.m.—Patient in the sink. 12 Noon—Patient on the flit. 12:15 p.m.—Patient flut.

## Many Diverse Applications

Divorce applications to the number of some 242 have been filed at Orde Hall, Toronto, so far this year. It was learned. Of this number 188 were applied for by wives and 109 by husbands. September was the high month for applications, 40 being recorded in that month.

More fires occur in winter than in summer, and there are more fires at night than in the day.

# Industry Must Take Leading Part In The Battle Against Depression, Says Dr. Manion

Calling upon industrial and business leaders together with men and women in every walk of life to pool their intellects in evolving a permanent cure for economic depression, Hon. R. J. Manion, Minister of Railways and Canals addressed at Windsor, the convention of the Boards of Trade and Chambers of Commerce of Ontario. Civilization was being challenged; it was on trial and "it is the duty of all good Canadians to give serious thought to the whole matter to avoid our civilization going the way of civilizations in the past."

Communism was not the cure, Dr. Manion hastened to add. Unemployment, hunger and hardship formed fertile ground for the seeds of Bolshevism. "Our whole system of production and distribution is out of gear. That is why paid agents of Moscow are in our midst today, feeding upon discontent like evil birds of prey. These agents must be suppressed, while our civilization has its faults, we can gradually correct those conditions without crippling or destroying our whole political and economic structure."

Notwithstanding its nature, any plan or policy to combat economic conditions must be contributory, continued Dr. Manion. The employee, the employer and the state must contribute. Without elaborating on it, the federal minister said one per cent. of all the wages and salaries paid annually in Canada, would amount to \$25,000,000. "What good Canadian," he added, "would object to contributing one dollar of every hundred dollars he earns to protect himself and his fellow Canadian from the tragedy of unemployment? In some such manner, modified according to circumstances, an immense fund could be built up in the full years to protect us in the lean years."

Industry must take a leading part in the battle against depression, continued Dr. Manion. The Dominion, provincial and municipal governments were able to do only so much—after that point other agencies must enter the lists. For one thing, industry must change its tempo of production. "With industry the system in the past has been to go full blast ahead in prosperous years or seasons, utilizing to the full its large factories, marvellous machines and the human element, but when depression arrives, the industries slow down and the workers have to be cared for by

the state until the next period of prosperity arrives. The Dominion this year was spending about \$50,000,000 in caring for the unemployed and this could not continue indefinitely.

"If our political and economic system is to endure," said Dr. Manion, "the ablest minds in industry, commerce and public life must try to evolve the alternating peaks of prosperity and depths of depression, and industry must give its assistance to the fullest. We must, in other words, stop investing industrial machines which take employment from the hands of the workers and try to develop instead a social machine which will keep our people reasonably employed and so give us a contented and happy people. This is the best antidote to the poison of communism."

Dr. Manion closed his speech on a note of optimism. This country possessed immense natural resources. Its banking system was strong and sound, the people were law-abiding, excellent ocean ports dotted the shorelines, unbounded commercial opportunities existed. Particularly in the Orient and along the lines of preferential Empire trade. While this was not the time to "rock the boat" by capricious political criticism, likewise it was not the time to pay undue heed to "economic pessimism." There could be no doubt about Canada's future. "Its greatness is still to come."

## Lambs From E.P. Ranch Show Top Grade Form

Royal Ranch Has Done Much To Raise Standard Of Sheep Raising In Alberta

The Department of Agriculture at Ottawa has just received the formal report on the grading of 22 ram lambs under the Federal Ram Grading Policy. Of the lot 21 graded XXX or top grade. S. G. Freeborn, District Live Stock Promoter, who did the grading, states the lot were the best the E.P. Ranch has ever brought out. H.R.H. the Prince of Wales has been giving special attention for a number of years to the improvement of his ranch flock, importing high grade rams from British flocks, and going farther afield to get rams with a view to improving the quality of his flock. Sales of graded ram lambs and other rams from the flock have done much to raise the standard for the breed in Alberta, and also to increase the popularity and worth of sheep raising as an industry, particularly in the West.

## What Canada Spends Annually On Pupils

Sixty-Six Dollars Approximate Sum For Each One

Schools and colleges of Canada teach, roughly, one-quarter of the country's population and are attended by 2,490,623 pupils, according to a report issued by the Dominion Bureau of Statistics. Each pupil involves an annual expenditure of approximately \$66, the total cost being \$165,381,198. An instructional staff of 53,141 teachers supervises the educational requirements of "Canada Junior."

Provincially-controlled schools of general education embrace 2,106,878 and the privately-controlled 92,275 (omitting from the calculation the enrolment of the Roman Catholic schools of Quebec).

## Has Ostrich Taste

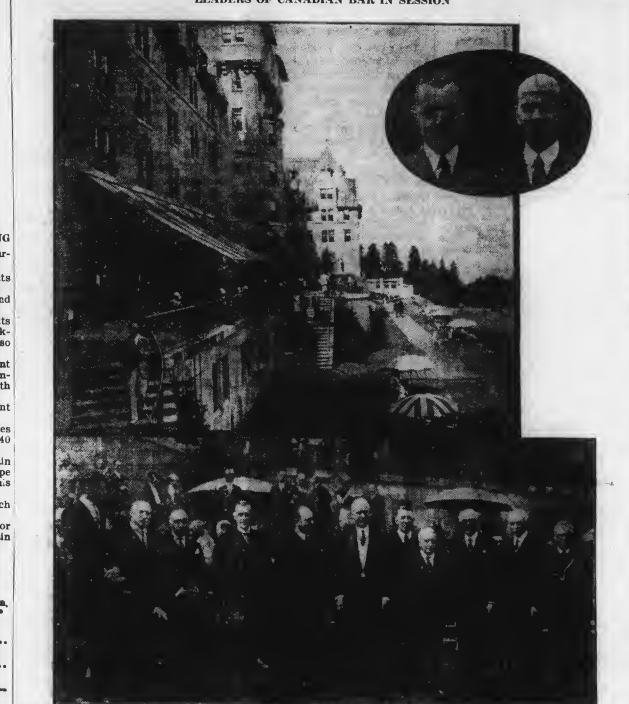

When a three-year-old steer was slaughtered at Smithfield, London, England, recently, among the articles found in its stomach were seven pounds of rusty nails and screws, a silver brooch, part of a rubber Wellington boot, part of a bowler hat, a shoe buckle and several pieces of copper wire.

Of 300 theatres in China, 55 are equipped for sound films.

"What! You want leave for your silver wedding? I will not grant it, or you will want leave every twenty-five years." — Fliegende Blätter, Munich.

## LEADERS OF CANADIAN BAR IN SESSION

From east and west Canada's leading barristers met at the 16th annual meeting of the Canadian Bar Association held during September at the Manoir Richelieu, Murray Bay, Quebec. Officially opened by His Excellency the Governor-General, the sessions were also attended by distinguished leaders of the bar from England, France and the United States. Photographs show: top view of the Manoir Terrace, during an informal gathering between business sessions; inset, Louis S. St. Laurent, K.C., Quebec, re-elected president of the Association, and E. H. Coleman, K.C., Montreal; left to right, Lord Duncannon, son of the Governor-General, Hon. Alfred Duncanson, M.C., M.P., Minister of Marine, Hon. Maurice Dupre, K.C., M.P., Solicitor-General; Louis S. St. Laurent, K.C., L.L.D., Maître Fernan Payen, bâtonnier of Paris, France; His Excellency the Governor-General, Sir Alexander Lawrence, Bart., Charles A. Boneston, president of the American Bar Association, Sir Lynden Macassey, K.B.E., K.C., London, England, Hon. N. W. Rowell, P.C., K.C., L.L.D., Toronto, and Mr. Justice Chipman, Halifax.—Photographs by Can. Steamship Lines.

"I never knew my father and mother."  
"Does that worry you?"  
"Yes. Magistrates will never believe that I have inherited my misfortunes." — Der Brummer, Berlin.

## LOST 20 LBS. FAT

### Without Altering Diet

To reduce weight without any attention to diet is rather more than anyone should expect. That the Kruschen method should have succeeded in this case is a great tribute to its effectiveness.

"When I started taking Kruschen for reducing weight, I weighed 170 lbs. That was seven months ago. I decided I was too heavy, and now, thanks to the half teaspoonful of Kruschen every morning, I tip the scale at 150 lbs. I have been that weight for nearly four months. I may say I feel much better. I did not diet myself in any way whatever."—E. C.

Kruschen Salts do not reduce you overnight—like so many products claim to do. But taken regularly over a period of time—with a modified diet and gentle exercise, later becoming more in a glass of hot water every morning before breakfast will take away unhealthy flesh and restore your figure to its normal weight. Yet at the same time—build up health with a great increase in vigor and energy for your life.

## WORLD HAPPENINGS BRIEFLY TOLD

Calgary's nine months' revenue report shows collections \$140,000 above the same period last year.

More than \$9,000,000 is to be spent on harbor development at Canton, China.

About 242 divorce applications have been filed at Osgoode Hall, of which 133 were filed by wives.

An increase in the value of meat and meat products exported from Canada for September is shown by the Dominion Bureau of Statistics.

Some 400 persons have been given employment in New York selling telephone service and extensions on commission.

Not a drop of rain has fallen in the Lorca district, near Murcia, Spain, for over seven years, and the peasants are imploring the Government's help.

Estimates that the Australian wheat crop will be 20 per cent. smaller than last year have been received at the agriculture department, Washington.

Increased activity is reported in many Lancashire and Yorkshire cotton mills as a result of an influx of orders since the gold standard was suspended.

The New York American, quoting "an informed source," says the late Senator Dwight W. Morrow, of New Jersey, left an estate of \$20,000,000.

According to the official census taken in June, Ottawa has a population of 124,988, or an increase of 15.90 per cent. in ten years. The 1921 census gave Ottawa a population of 107,843.

A special cable from London to the New York Times announces the death in Bournemouth, England, of General Sir Reginald Hargraves, 83. Sir Reginald was the oldest holder of the Victoria Cross, which was awarded him in the Afghan war of 1879.

## Separate Grade For Garnet Wheat Asked

May Be Excluded From Contract Grades Of Northern Classes

Garnet wheat will be excluded from the contract grades of the northern classes after July 31, 1932, if a resolution passed unanimously by the Western Grain Standards Board is approved and the Canadian Grain Act duly amended at the next session of parliament.

The resolution urged that it be graded as a separate variety of wheat in grades to be known as number one, two and three Garnet, with anything which fails to meet the requirements of these grades being included in the lower grades of the red spring wheat.

Aviators flying at night through the high-walled gorge of the Columbia River, are now guided for 50 miles by red and green beacon lights.

"My mother is kind, she promised me a doll yesterday and gave it to me today."

"That is nothing—my mother promised me a little brother and today she gave me three."—Il Travaso, Rome.

W. N. U. 1912

## Worry and Fear

Factors That Help To Shorten the Span Of Life

The way that hate, fear, worry and jealousy have helped to choke off at 58 years man's hitherto rapidly increasing span of life, was described to the American College of Surgeons in New York.

The bank president worrying over business, the criminal suddenly stricken with fear and the mother watching her sick child all were pictured as doing the same injury to their health.

This increase to 58 as the average time every adult may expect to live was discussed by two internationally known physicians, Dr. George W. Crile of the Cleveland Clinic, and Dr. Charles H. Mayo, of the Mayo Clinic of Rochester, Minn.

Dr. Crile told the medical story of ravages of emotions of modern civilization. Dr. Mayo sketched remedies for ill health, which included newspapers as "the greatest educating, thought-moulding enterprise in the world."

By Annette

CROSS-OVER LINES TEND TO MAKE THE FIGURE AFRONT SLIM

YOU'LL LOVE THIS SLIP CREPE SHANTUNG IN powder blue and white.

It's so extremely serviceable. Its moulded lines with wrapped arrangement through the bodice makes it especially desirable for the woman inclined to overweight. The surplus shawl collar of plain white crepe does its bit toward minimizing breadth.

It's simplicity itself to copy it! The bodice cuts in one until it joins the skirt.

It's a splendid opportunity! Choose now! You'll be delighted with this smart model.

Style No. 931 may be had in sizes 16, 18, 20 years, 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 3½ yards of 36-inch material with ¾ yard of 35-inch contrasting.

Charming for this model for town or resort are the pastel flat crepe silks, Chinese silk damask, linen and shirring fabrics.

Pattern price 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

## How To Order Patterns

## Men, Not Gals

Arthur Brisbane, a United States editorial writer, comments on the flying performances of the British Lieutenant Stainforth who made a mark of 366 miles per hour, and says: "A nation that can make such airplanes and find men to run them ought not to be discouraged about a few million pounds sterling one way or the other. It is what men have in their brains that makes a country."

## BRITISH "BORRIE" STRIVES FOR LAW AND ORDER

This lively scrimmage is far more reminiscent of what is expected of Red Russia than of usually staid, peaceful London, but such scenes as this battle between a London policeman and several marchers in an unemployment parade, have become frequent in the British capital as demonstrations increase over prevailing economic conditions. The policeman was trying to tear a red banner from the hands of the struggling marchers as this picture was snapped in exclusive Oxford Street, London, England.

## China Becoming Modern

Western Mode Of Living Is Being Gradually Adopted

That China is rapidly narrowing the gap of centuries between its antiquated mode of living and modern civilization has been evidenced in many ways. The Chinese student is avid for Occidental knowledge and may often be seen mingling with enthusiastic graduates at Columbia and other universities. The Oriental nation has realized the healthful benefits of wheat at a most opportune time and it now becoming a new consumptive market for 15,000,000 bushels of surplus wheat from the Federal Farm Board's stocks, which it recently purchased on a long-term credit basis. Nor is the health of the modern Chinese baby being neglected. The best milk and butter that registered Ayshire cows can produce will attend to this necessity, for the Hong Kong Dairy and Cold Storage Company has placed an order with the British Columbia Ayshire Breeders' Association for 50 head.

## The New Honey Grades

Canadian Standard For Honey Provide A Natural Classification

The consuming public are showing a special interest in the attractive appearance and convenient identification of quality which is made possible by the new honey grades, which come into effect this year. Where honey is sold by grade the grading must conform to the Canadian standards. The Canadian standards for honey provide a natural classification by colour into the four classes "White," "Golden," "Amber," and "Dark." These classes in turn are graded strictly on the quality basis as "Fancy," "Choice" or "Manufacturers." The honey grades are especially popular because of the consistency of the application of grade terminology to the product when graded, the inherent quality of the honey literally speaks for itself.

## Must Buy At Home

The woman of Turkey's officialdom must turn their eyes from the mode of Paris and buy their gowns at home, the cabinet has decided. The edict against foreign garment apparel even to President Mustapha Kemal, who must forego his London tailor's services. It's all part of a national economy programme.

Wife (to husband who has fired at rabbit just as chimney is felled): "Oh, John, dear, look what you've done now!"—The London Opinion.

## SUNDAY SCHOOL LESSON

### NOVEMBER 1

WORLD'S TEMPERANCE SUNDAY

Golden Text: "Be not drunken with wine, wherein is riot, but be filled with the Spirit."—Ephesians 5:18. Lesson: Galatians 5:13-26; Romans 13:1-14. Devotional Reading: Romans 14:13-21.

## Explanations and Comments

"Brothers," wrote Paul to the Galatians, "Christian Freedom, verses 13-15, 'You are free from the Law, but Christian liberty does not mean that you can do as you please.' 'A Christian man is the most free lord of all, and subject to none; a Christian man is the most dutiful servant of all, and subject to all.'—Martin Luther.

Liberty and license are not synonymous. Do not use your freedom as a license for indulging your lower impulses, but live in accordance with the law of love. 'Flesh' is used here for 'that element of man's nature which is opposed to goodness and makes for evil. It signifies the entire potency of sin.' 'Through loving services for others'—the Holy Spirit in all your acts, and then you will not fulfil the desire of your evil nature. For the evil nature and the indwelling Holy Spirit are antagonistic. 'Throughout this passage the 'Spirit' is evidently the Divine Spirit, for the human spirit in itself and unaided does not stand direct antagonism to the flesh.'—Lightfoot.

The Power of the Spirit, verses 16-18. Walk by the Spirit, submit to the guidance of the Holy Spirit in all your acts, and then you will not fulfil the desire of your evil nature. For the evil nature and the indwelling Holy Spirit are antagonistic. 'Throughout this passage the 'Spirit' is evidently the Divine Spirit, for the human spirit in itself and unaided does not stand direct antagonism to the flesh.'—Lightfoot.

If you are led by the Spirit, Paul continues, 'you are not under the law for you will not disobey it.' 'Law exists for the purpose of restraint, but in the works of the Holy Spirit there is nothing to restrain.'—Lightfoot. The Works of the Flesh, verses 19-21. The works of the flesh are manifest—plainly seen—Paul declares, and then he gives a repelling list of some of the vices which were common among the Galatians. 'It may be pointed to as a proof of depravity that vocabulary have more words descriptive of forms of sin than words descriptive of forms of holiness. Under the fruit of the Spirit Paul gives a list of nine, but under the works of the flesh his list extends to fifteen, property sixteen, and the word translated 'which' implies that he did not profess to give an exhaustive list of vices which were common among the Galatians. 'It may be pointed to as a proof of depravity that vocabulary have more words descriptive of forms of sin than words descriptive of forms of holiness. Under the fruit of the Spirit Paul gives a list of nine, but under the works of the flesh his list extends to fifteen, property sixteen, and the word translated 'which' implies that he did not profess to give an exhaustive list of vices which were common among the Galatians. ## THE HOUSE OF DREAMS-COME-TRUE

- BY -

MARGARET PEDLER

Author of "The Splendid Folly," "The Hermit of Far West," "Hedder &amp; Stoughton, Ltd., London."

CHAPTER IV.—Continued.

Jean, always sensitive to her surroundings, shivered a little.

"It's rather eerie, isn't it?" she said.

"It's just as if someone had suddenly turned the lights out."

"Quite a nice bit of symbolism," he returned emphatically.

"How? I don't think I understand."

He laughed a little.

"How should you? You're young. Fate doesn't come along and snuff out the lights for you when you are—"

"What shall we say? Eighteen?"

"You're two years out," replied Jean composedly.

"As much? Then let's hope you'll have so much the longer to wait before Madame Destiny comes round with her snufflers."

He spoke with a kind of bitter humour, the backwash surely, of some storm through which he must have passed.

Jean looked across at him with a vague trouble in her face.

"Then, do you think," she spoke uncertainly—"do you believe it is inevitable that she will come—sooner or later?"

"I hope not—to you," he said gently.

"But she comes to most of us."

She longed to put another question, but there was a note of finality in his voice—a kind of "thus far shall thou come and no further"—that warned her to probe no deeper. Whatever it was of bitterness that lay in the Englishman's past, he had no intention of sharing the knowledge with his chance companion of a day. He seemed to have become absorbed once in his own thoughts, and for a time they tramped along together in silence.

The ascent steepened perceptibly, and Jean, light and active as she was, found it hard work to keep pace with the man's steady, swinging stride.

Apparently his thoughts engrossed him to the exclusion of everything else, for he appeared to have utterly forgotten her existence. It was only when a slip of her foot on the beaten surface of the snow wrung a quick exclamation from her that he paused, wheeling round in consternation.

"I beg your pardon! I'm walking you off your legs! Why on earth didn't you stop me?"

There was something irresistibly boyish about the quick apology. Jean laughed, a little breathless from the swift climb uphill.

"You seemed so bent on getting to the top in the least possible time," she replied demurely, "that I didn't like to disappoint you."

"I'm afraid I make a poor sort of guide," he admitted. "I was thinking of something else. You must forgive me."

They resumed their climb more leisurely. The trees were thinning a bit now, and ahead, between the tall, straight trunks winged with drooping, snow-laden branches, they could catch glimpses of the white world beyond.

Presently they came out above the pine-wood on to the edge of a broad plateau and Jean uttered an exclamation of delight, gazing with unbounded delight at the scene thus suddenly unfolded.

Behind them, in the pine-ripened valley, a frozen reach of water gleamed like a dull sheet of metal, while before them, far above, stretched the great chain of mountains, pinnacle after pinnacle, capped with snow,

thrusting up into the cloud-veiled sky.

Through rifts in the cloud—almost, it seemed, torn in the breast of heaven by those towering peaks—the sunlight slanted in long shafts, chequering the snows with shimmering patches of pale gold.

"It was with the climb, then?"

The Englishman, his gaze on Jean's rapt face, broke the silence abruptly. She turned to him, radiant-eyed.

"It's so beautiful that it makes one's heart ache!" she exclaimed, laying her hand on her breast with the little foreign turn of gesture she derived from her French ancestry.

She said no more, but remained very still, drinking in the sheer loveliness of the scene.

The man regarded her quietly as she stood there silhouetted against the skyline, her slim, brown-clad figure striking a warm note amid the chill Alpine whites and greys. Her face was slightly tilted, and as the sunbeams glinted on her hair and eyes, waking the sunset lights that shimmered in them, there was something vividly arresting about her—a splendour of ardent youth which brought a somewhat wistful expression into the rather weary eyes of the man watching her.

His thought travelled back to the brief snatch of conversation evoked by the sudden gloom of the pine-woods. Surely, for once, Fate would lay aside her snufflers and let this young, eager life pass by unshadowed.

Even as the thought took shape in his mind, Jean turned to him again, her face still radiant.

"Thank you for bringing me up here," she said simply. "It has been perfect."

She stretched out her hand, and he took it and held it in his for a moment.

"I'm glad you've liked it," he answered quietly. "I will always be a part of our day together—on the day we stole from the conveniences!" he smiled whimsically. "And now, if you can bring yourself back to more prosaic matters, I suggest we have lunch. Scenery, however fine, isn't exactly calculated to sustain life."

"Most material person!" she laughed up at him. "I suppose you're thinking of a ham sandwich worth all the scenery in the world?"

"I'll admit to a preference for the sandwich at the moment," he acknowledged. "Come, now, confess! Aren't you hungry, too?"

"Starving! This air makes me feel as if I'd never had anything to eat in my life before!"

"Well, then, come and inspect my little manger."

The proposed refuge proved to be a roughly constructed little hut—hardly more than a shed provided with a door and thick-paneled window, its only furniture a wooden bench and table.

But that it had served its purpose as a kind of "travellers' rest" was proved by the fragments of appreciation, both in prose and verse, that were to be found inscribed in a species of "Visitors' Book" which lay on the bench, carefully preserved from damp in a strong metal box. Jean amused herself by perusing the various contributions to its pages while the Englishman unpacked the contents of his knapsack.

The lunch that followed was a merry little meal, the two conversing with a happy intimacy and freedom from reserve based on the reassuring knowledge that they would, in all probability, never meet again. After-wards, they bent their energies to concerting a suitable inscription for insertion in the "Visitors' Book," squabbling like a couple of children over the particular form it should take.

So absorbed were they in the discussion that they failed to notice the perceptible cooling of the temperature. The sun no longer warmed the roofing of the hut, and there was a desolate note in the sudden gusts of wind which shook the door at frequent intervals as though trying to attract the attention of those within. Presently a louder rattle than usual, coincident with a chance pause in the conversation, roused them effectually.

The Englishman's keen glance flashed to the little window, through which was visible a dancing, whirling blur of white.

"Great Scott!" he exclaimed in good round English. "It's snowing like the very dickens!"

In two strides he had reached the door, and, throwing it open, peered out. A draught of icy air rushed into

## CHILD need REGULATING?

### CASTORIA WILL DO IT!

When your child needs regulating, remember this: the organs of babies and children are delicate. Little bowels must be gently urged—never forced. That's why Castoria is used by so many doctors and mothers. It is specially made for children's ailments; contains no harsh, harmful drugs, no narcotics. You can safely give it to young infants for colic and to older children for constipation. Yet it is an equally effective regulator for older children. The next fever, or a digestive upset, give him the help of Castoria, the children's own remedy. Genuine Castoria always has the name:

CHILDREN CRY FOR IT

the hut, accompanied by a flurry of fine snow driven on the wind.

When he turned back, his face had assumed a sudden look of gravity.

"We must go at once," he said, speaking in French again and apparently unconscious of his momentary lapse into his native tongue. "If we don't, we shall be able to get back only by the snow drifts quickly in the valley. Half an hour more of this and we shouldn't be able to get through."

Jean thrust the Visitors' Book back into its box, and began hastily repacking her companion's knapsack, but he stopped her almost roughly.

"Never mind that. Fasten that fur thing closer round your throat and come on. There's no taking chances a blizzard like this. Don't you understand?"—almost roughly. "If we waste time we may have to spend the night here."

Impelled by the sudden urgency of his tones, Jean followed him swiftly out of the hut, and the wind, as though teased by her haste, snatched the door from her grasp and drove it to with a menacing thud behind them.

(To Be Continued.)

## Honor Canadian Doctors

Westerners Appointed To Governing Body Of American College Of Surgeons

Dr. W. Edward Galt, professor of surgery at the University of Toronto, was elected a vice-president of the American College of Surgeons, met in New York. He will be installed at the next annual meeting.

Installed as vice-president was Dr. Ross Millar, director of medical sciences of the Department of Pensions and National Health, Ottawa.

Dr. J. Bentley Squier, of New York, was elected president and will take office at the 1932 annual congress.

Among those elected to the Board of Regents was Dr. Robert E. McCardie, of Vancouver, B.C.

A group of more than fifty prominent surgeons of North and South America will take office at once on the Board of Governors. They include Dr. Ambrose L. Lockwood, of Toronto; Dr. Hugh MacLean, of Regina, Sask.; Dr. Alexander Monroe, of Calgary, Alberta, and Dr. William Harvey Smith, of Winnipeg.

The congress has a system of election whereby at the same congress at which the incoming officers are inaugurated, officers for the following term are elected.

Mothers can easily know when their children are troubled with worms, and they lose no time in supplying a reliable remedy—Mother Graves' Worm Exterminator.

Simple When You Know

Last month says the New Yorker, a gentleman got his bill from Hammacher, Schlemmer's. He hadn't bought much there the previous month, only one item was listed, but that one item puzzled him exceedingly. It was "1 gr F H Brl Ir Wd Scs".

—0.45. He puzzled over this for some time, and got nowhere; finally just for the sake of his peace of mind, he called the store and asked them please to explain what it meant.

Simple matter. It meant "four gross flat-headed bright iron wood screws."

English is displacing French as the first foreign language taught in many Prussian schools.

Gasoline is being sold in Germany at 40 cents a gallon.

## Duck Carries Band For Nine Years

Valuable Information Regarding Habits Of Birds Obtained Through Banding Method

On the first day of the 1930 open season for black duck in the province of New Brunswick, a resident of Jollicore brought down a banded black-duck which had been winged by 113 G. G. G. at Lake Scugog, Ontario, on September 15, 1921. Canada

it related the story of the duck's adventures and how it managed to escape all hazards for over nine years would be an interesting one. Much valuable information concerning the migration, range, and longevity of many species of wild birds is being obtained by the banding method. Any person who finds a banded bird is requested to help by this important work by reporting the details to the Commissioner, National Parks of Canada, Department of the Interior, Ottawa.

Experience Is Limited

Secret Of Lending

Before the war, England conducted the great bulk of the world's trade with a trifling gold stock, and she took care to prevent an accumulation of gold by the free lending abroad. But though the United States has floated 600,000 of gold she is doing nothing with it, and unconsciously is thereby helping to accentuate and prolong the depression in world trade, from which she is suffering as acutely as any other country. America has had only a limited experience as a creditor country, and it may appear to her that she cannot advantageously lend to bad debtors. Debtors more recently need assistance when things are bad than when they are good. Bad though their position may be it will become worse unless they are helped. Debtor countries are by no means blameless, but the responsibilities of creditors are not less grave than those of debtor countries.—Financial Post, London Times, England.

Persistent Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap the strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

Held Record As Bricklayer

Nine million bricks have been made by Mary Foxall of Lye, Worcester-shire, England, in the sixteen years she has been at the occupation. She held the county's record, which she achieved by maintaining an average of six hundred and fifty bricks a day.

At all events, Gar Wood and Kaye Don broke even in regard to the brevity of their names.

When PAIN Comes

What many people call indigestion is in the stomach. The stomach nerves have been over-stimulated, and the acids. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to modern science is Phillips' Milk of Magnesia.

One spoonful of this harmless, tasteless, alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go, get a small bottle to get the genuine Phillips' Milk of Magnesia prescribed by Physicians for 50 years in correcting excess acids. 50¢ a bottle—any drug store. (Made in Canada.)

W. N. U. 1913

## Don't Gamble With Health

We all know health demands absolute inner cleanliness. But what we often don't realize is the risk we take when we use harsh, griping purgatives that create a strained, unnatural condition.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, may not only cleanse and sweeten the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

## A Birthday Party

Birthday Cards To Be Sent From Royal Winter Fair

Every boy and girl in Canada whose tenth birthday falls between November 18 and 26, inclusive, will receive a personal birthday card from the Royal Winter Fair, Toronto, if it is requested. This is because the winter fair on those dates also celebrates its tenth "birthday."

This year the fair is designated a "commemorative show" to recall the inspiring influence it was to Canadian agriculture when founded ten years ago. And it is to help in spreading a cheery outlook respecting agriculture that the birthday party is being held.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that beset infants, enfeebling them and endangering their lives.

Species Is Unknown

Petritied Fish Found In Gravel Pit Near Moose Jaw

Mute testimony of the better that the prairies were once covered by many fathoms of water is borne in the finding of a petrified fish of an unknown species, in a gravel pit, three miles southeast of Moose Jaw. Carl Erickson, working at the rock pile was smashing a huge rock of 500 or 600 pounds when he came upon the "fish." It was right in the centre of the huge rock which had been dug up from a depth of about eight feet underground.

This relic of a distant age resembles the small and is about the size of a man's fist.

The agent drives it 400 miles while demonstrating, and it's still a new car. Then you drive it home and it's a used car, worth \$800 less.

The Rhyming Optimist

By Aline Michaelis

LIFE'S DELIGHT

Sometimes love is a rose aglow

In a garden gay with sun

Where the winds all sweet with perfume go

And song is never done.

As day by day the roses nod

And brighten the garden-plot,

So love in a life is the smile of God,

And life grows fair by love's grace.

Sometimes love is a lily-bud

As lovely as the moon,

A lily-bud in the star-light's mood

On the still and black lagoon.

As lilies may lift, their petals pale

Out of the mud and slime,

So love in a life can never fail

To make that life sublime.

Love may be rose or lily white,

A thing of sun or shade;

But always love has been life's delight,

Since ever the world was made.

Was Always a Nobleman

Receiving Title Did Not Change Sir Thomas Lipton

Samuel Smiles never had a clearer self-made man than Thomas Lipton. The boy to whom a guinea used to be a fortune became the master of millions and the employer of hosts of men. He was generous with his money, never more so than in the World War, when he turned the Erin into a hospital ship; and Serbia knew him as "Uncle Tom." His motto was "Labore Omnia Vincit." A friend of the early Glasgow days said of him: "He did not need to be knighted to be a nobleman."

Get Acquainted First

Wife:—The couple next door seem to be very devoted, John. He kisses her every time he goes out and when he comes in again, and waves kisses to her from down the street. Why don't you do that?

Hubby:—Hang it all, give a man time, I don't even know her yet.

Russia's Policewomen

Moscow, Russia, is one of the few cities of the world to boast of uniformed policewomen on regular beats. They wear helmets and, attached to a belt over their olive-drab jackets, is a pistol in a leather holster.

Canada has 12,427 post offices, an increase of 18 since last year and of 190 since 1922. Rural mail carriers throughout the country number 4,264.

## Little Helps For This Week

"Blessed is that man that maketh the Lord his trust."—Psalm xl, 4.

Just to trust and yet to ask

Guidance still,

Take the training or the task

As He will.

Just to take the loss or gain

As He sends it;

Just to take the joy or pain

This is all and yet the way

Marked by Him who loves thee best;

Secret of a happy day.

Secret of His promised rest.

If you go to Him to be guided, He will guide you; but He will not comfort your distrust or half-trust of Him by showing you the chart of all His purposes concerning you. He will only show you into a way where, if you go cheerfully and trustfully forward, He will show you on still farther. No contract will be made with you save that He engages, if you trust Him, to lead you into the best things all the way through.—Horace Bushnell.

Keep on your Feet

4 MORE ACTIVE DAYS

Every Month She's "Sick Again"

Too bad! Sick again... doubled up with cramps. The boss was nice... awfully patient.

But it was so embarrassing... everybody in the office knew that she "wasn't well."

Then a girl friend told her what to do. She used Lydia E. Pinkham's Vegetable Compound. It's a wonderful medicine to use during these "trying times."

It keeps you up. Drives away those blues. Keeps you on your feet. Won't you try a box of the new tablets?

Lydia E. Pinkham's

VEGETABLE COMPOUND

## Could Not Check the Summer Complaint A Few Doses Did It

Mrs. R. Coulter, 918-11th Ave. E., Calgary, Alta., writes:—"Last summer my youngest son was very bad with summer complaint, and everything he ate he would vomit, and he got so thin I became very much worried. I could not get the discharge checked, so I went to the druggist and he gave me a box of Dr. Fowler's Extract of Wild Strawberry and told me it would stop the trouble if anything would. After I had given the boy the first dose I noticed the discharge were being checked, and he was not long before he was well again."

## Report of Henriette Trial

Jury Verdict Given After More  
Than Five Hours Deliberation

(Lethbridge Herald)

Macleod, Oct. 22.—The sittings of the supreme court were resumed this morning at 9:30 o'clock in the Macleod court house when His Lordship Chief Justice Simmons gave his charge to the jury in the Rex vs. Frank Henriette, indecent assault case.

This case was commenced on Tuesday afternoon and occupied the whole of both sittings yesterday, counsel for the crown and the defendant having addressed the jury before the close of the court yesterday afternoon, it only remained for His Lordship to sum up for the jury this morning. His Lordship's address occupied 20 minutes, and reviewing the evidence stated that the main point which the jury had to consider was the evidence of the complainant, Mrs. Guegard, and the defendant, Frank Henriette. It was simply a question of which of the stories told by these two in the witness box was the truth. His Lordship also directed the jury as to points of law relating to crimes of this nature.

The jury retired to the jury room at 10 minutes to 10 a.m. and they did not return to the court room till 3:10 p.m., being five hours and twenty minutes in considering their verdict, which their foreman, F. Watson announced. They found the accused guilty. Mr. Hannan made a strong plea for leniency, on account of the accused being a young man with a wife and two small children. His Lordship in passing sentence of two years less one day in Lethbridge jail, spoke of the seriousness of the offence, and said that he believed that if the accused had been sober, the assault would not have been committed.

## PROTEST MEETING HELD

On Sunday a meeting was held in the K. of P. hall, the chairman of which was Rock Sudworth, and the secretary, J. Wilson. At the meeting, it is reported that petitions will be circulated to ask the minister of justice to reconsider the case. The meeting was announced as a public meeting.

## Interesting H. School Report

Principal Hoyle's Report for June and September Worthy of Close Consideration.

A comprehensive and interesting review of examination results of Coleman high school for June and September, 1931, has been prepared and copies issued by Principal Hoyle, covering five pages of typewritten matter. This should prove of special interest to parents and students and doubtless will receive careful consideration.

The review states: "The Alberta high school course for junior matriculation and second class Normal entrance calls for progress at the rate of seven units a year. This is a very heavy requirement and it is interesting to note how many of our students are progressing at a rate better than that demanded. The more capable among the students are encouraged to do this so that their fourth year (first year University work) may not be too heavy."

Students passing seven or more units show a consistent increase as follows:

Year	1927	1928	1929	1930	1931
Units	6	13	22	31	46

A copy of this report may be obtained on applying to the principal or the secretary of the school board. The present enrolment is 109.

## MANY FLORAL TRIBUTES FOR BOBBY DEWAR FUNERAL

The following are gratefully acknowledged by Mr. and Mrs. A. Dewar: Mr. and Mrs. J. O. C. McDonald, Mrs. Yerna, Margaret and John; Mr. and Mrs. Thomas Flynn and family; Mr. and Mrs. Odell, Mr. and Mrs. W. Clark and Hubert, Mr. and Mrs. J. ## MARRIED

On Wednesday, October 21st, occurred the marriage of Miss Grace Fleming of Coleman to Rev. J. W. Humble of Mantario, Sask., at the Church of the Nazarene, Lethbridge, the Rev. W. A. Peterson officiating.

The bride was becomingly dressed in ivory flat crepe, carried a bouquet of chrysanthemums, and was attended by Miss Emilyetta Eggleston, of Claresholm, while Evelyn Fleming, sister of the bride, acted as flower girl. Mr. Louis McCurdy supported the groom.

Lohengrin's Wedding March was played by Mrs. V. L. Baptiste, aunt of the bride, who also rendered a soft musical accompaniment during the entire ceremony.

The happy couple left immediately for Red Deer, to complete their course at the Northern Bible College.

St. Alban's Ladies' Guild desire to thank all who donated towards their bazaar and sale of home cooking on Saturday. The winner of the rug, which was drawn for, was Mrs. Hilbert with No. 12, and Mrs. Mary Bell won the quilt with number 71. Mrs. Jack Richards won the dog with No. 1. The ladies were well pleased with the success of this annual event.

NOT APPENDICITIS—  
GAS PAINS FOOL HIM

"I had such pain in my right side I thought I had appendicitis. But it was only gas. After taking Adlerika I've had no trouble."—W. L. Adams.

You can't get rid of gas doctored the stomach. For gas stays in the UPPER bowel. Adlerika reaches BOTH upper and lower bowel, washing out poisons which cause gas, nervousness, bad sleep. Get Adlerika today; by tomorrow you will feel the wonderful effect of this German doctor's remedy.—H. C. McBurney, Druggist.
